

## Fan Modification

Wire Colours At Fan Control Relay Position in the Loom :

- Brown - This is a permanent un-fused supply for the fan motor.
- Black - This is the earth for the fan motor and/or control module.
- Pink – For Possible connection to A/C or for a forced on manual Over-ride.
- \*Green – Ignition On fused control wire for the fan control relay.

\*If a fan isolator switch is required, a switch may be placed in this circuit.

Please note the above British Standard Wiring colours may differ from cable colours used by Cooling Fan manufacturers.

### Standard Cable Colour Abbreviations Used as follows:

B = Black	N = Brown	R = Red	W = White
